

ADVANCE is a revolutionary locking solution that is destined to change the way you look at hotel security, design and technology.

ADVANCE combines the proven reliability of the world's most trusted name in electronic locking with a fresh new aesthetic that is designed to meet the needs of the demanding hospitality environment.

ADVANCE features a unique two-piece modular design and an array of attractive options that allow you to seamlessly blend your guest room door locks into any hotel decor. One look at ADVANCE and you'll never look at doors locks the same way again.

Magstripe Lock Features

- Non-volatile memory records the last 500 lock openings - including date, time and card used
- Programmable for length of time door remains open, and automatic closing
- Low battery indicator lights alert hotel staff without disturbing guest
- Programmable for the "office mode" function (free passage).
- Corrosion resistant case for normal atmospheric conditions
- Lock ensures accuracy by reading the card twice; once during insertion and once during removal
- Each new guest card overrides any previous guest card, preventing re-entry

Smart-Card Lock Features

- Dual technology reads smart card chips and magstripe cards
- Non-volatile memory records the last 500 lock openings - including date, time and card used
- Programmable for length of time door remains open, and automatic closing
- Low battery indicator lights alert hotel staff without disturbing guest
- Programmable for the "office mode" function (free passage).
- Corrosion resistant case for normal atmospheric conditions
- Lock ensures accuracy by reading the card twice; once during insertion and once during removal
- Each new guest card overrides any previous guest

Operation Systems

ADVANCE can be powered with any of the following:

HT22i

For magstripe keycards.

- Ideal for small and mid-sized properties
- All the features and functions you expect from an electronic locking system without the need for a PC
- PMS interface option

HT24w

For magstripe keycards. Expect more!

- Fully featured PC based system for any property size
- Virtually unlimited number of front desk card issuing stations
- Optional PMS and POS interfaces

HT28 Smart and Revalidator

Accepts both magstripe and smart cards.

- Enhances overall security and improves staff and operations management
- Smart keycards can be used for staff only while guests use inexpensive magstripe
- Smart keycards enable multi-application
