# Onity

A UTC Fire & Security Company

Are all of your rooms deadbolted right now? There's no question with Onity's Auto Deadbolt. Each timeyour guests close their door, Onity's Auto Deadbolt engages for added security. A closed door is a deadbolted door!

## Auto Deadbolt Features Include:

☐ Unlike regular mortise locks, the Auto Deadbolt automatically extends a 1-inch deadbolt into the door frame when the door is closed.

☐ Your guests recieve additional protection with a 3/4" latch.

☐ Operates with Onity's electronic locks. Upgrades available on existing locks.

☐ Meets standard ANSI specifications.

☐ UL approved for installation on fire doors. Includes an internal fusible link.

☐ Deadbolt trigger also functions as a standard dead latch for maximum security.

☐ Back-up deadbolt projection by thumbturn.

☐ ANSI 3 clutch upgrade and weather gasket.

☐ On-site service.

## Onity's Exclusive Feature!

Your guests can indicate privacy simply by turning the thumbturn from inside their room. When your staff inserts their keycard into the lock, the light shows red.
